- NA • The Project is requires a National Pollutant Discharge Elimination System (NPDES permit)?
- NA • The Project is a designated Brownfield Site and/or subject of a 21E Survey?
- NA • This Property was subject to a prior Permit(s) and/or Approval(s) issued by the Planning Board? *(Please indicate permits and approvals)*_____

Site Plan Review Application Checklist

An application for site plan review and approval shall be prepared by qualified professionals registered in the Commonwealth of Massachusetts as follows: a professional land surveyor and/or engineer shall prepare all site plans; a professional landscape architect shall prepare all landscape plans; and an architect shall prepare all renderings for building elevations and building plans. The Planning Board shall review projects based on **major** and **minor** site plan review as outlined in Section VI.F.2.

Content and Scope of Applications: Section 21.1.1 of the Planning Board Rules and Regulations.

Applications for both **major** and **minor** site plan review shall submit plan sets with a cover sheet containing the following information.

- ☒ 1. Address(es) of the proposed project.
- ☒ 2. Identification of parcel by Parcel ID.
- ☒ 3. Project Title
- ☒ 4. Prepared by/Prepared for:
- ☒ 5. Professional Engineer and/or Land Surveyor licensed in the Commonwealth of Massachusetts stamp and signature.
- ☒ 6. Registered Architect stamp and signature.
- ☒ 7. Zoning Table showing the existing, required, and proposed dimensions in accordance with Section IV.E, Dimensional Regulations.
- ☒ 8. Parking Table, showing the existing number of parking spaces, required number of parking spaces, and the proposed number of parking spaces. This Table shall include the dimensions of the proposed parking spaces, number and dimensions of the handicap accessible spaces, and number and dimensions of loading spaces.
- ☒ 9. Maximum seating capacity, number of employees, or sleeping units if applicable.
- ☒ 10. Locus Map to allow adequate consideration of the surrounding neighborhood, a plan of adjacent properties shall be presented at a scale of not less than one inch equals 100 feet or at the same scale as the proposed site plan if practical. This plan shall show the general characteristics of all lands within 300 feet of the proposed site or such other distance as may be reasonably required, including structures, parking areas, driveways, pedestrian ways, and natural characteristics. Any structures or significant change in topography within 50 feet of the lot line shall be located precisely on said plan.

Content and Scope of Applications: Section 21.1.2 of the Planning Board Rules and Regulations.

Applicants for both **major** and **minor** Site Plan Review shall include the following information on all plan sheets

- ☒ 1. Address(es) of the project, identification of parcel by Parcel ID, and Project Title; Plan sets shall be accurately drawn to a scale of one inch equals 20 feet to one inch equals 60 feet, where practical and appropriate to the size of the proposal.

- ☒ 2. Planning Board Signature Block at approximately the same location on each page of the submitted plans.
- ☒ 3. North arrow and scale of drawings.
- ☒ 4. Date of plan and revision dates.
- ☒ 5. Location of pedestrian areas, walkways, flow patterns and access points, and provisions for handicapped parking and access, and bicycle accommodations.
- ☒ 6. Locations and dimensions, including total ground coverage, of all driveways, maneuvering spaces and aisles, parking stalls and loading facilities, and proposed circulation of traffic.

Content and Scope of Applications: Section 21.1.3 of the Planning Board Rules and Regulations.

Applicants for **major** site plan review shall include the following sheets within a plan set shall include the following sheet where applicable

- ☒ 1. Existing Conditions site plan, showing the locations of all infrastructure on- and off- site, including sidewalks and roadways which are public and private, square feet and dimensional of all existing buildings on-site, existing off-street parking areas with dimensions of landscaping area.
- ☒ 2. A landscape plan at the same scale as the site plan, showing the limits of work, existing tree lines, and all proposed landscape features and improvements including planting areas with size and type of stock for each shrub or tree.
- ☒ 3. A photometric plan showing both the intensity of illumination expressed in foot-candles at ground level to the property's boundaries and the location, orientation, height, wattage, type, style, and color of outdoor luminaire(s) for all existing and proposed lighting. Photometric plan and details should be designed in accordance the Article 22: Site Plan Review Lighting Requirements, in the Planning Board's Rules and Regulations, herein.
- ☒ 4. Dimensions of proposed buildings and structures, including gross floor area, floor area ratio, total lot coverage of building, and breakdown of indoor and outdoor floor area as to proposed use. Area dimensions to include Lot Coverage of Building, Paved Surface Coverage, and Landscaped Open Space and Other Open Space, with percentages of these items to be provided and to total 100 percent of the lot area.
- ☒ 5. Color architectural renderings of new and redevelopment building projects.
- ☒ 6. Parking Plan showing the drive aisle widths, turning radius, stall heights and widths, locations of pedestrian and bicycle amenities, and landscaping.

Applicants for **minor** site plan review shall include the sheets within a plan set forth in subsection 21.1.3 above where applicable, except the plans set forth in subsection 21.1.3.3 need not be submitted for **minor** site plan review.

Content and Scope of Applications § VI.F.4.a.1)-12)

- ☒ 1. A written statement outlining the estimated time required to complete the proposed project, expected start of construction, and all phases thereof.
- ☒ 2. A written summary, where appropriate, detailing the following:
 - The number of dwelling units to be built and the acreage in residential use,
 - The number of seats and/or number of employees,
 - Evidence the project is in compliance with the Town's off-street parking and off-street loading requirements,
 - The forms of ownership of the property, and
 - A summary of the provisions for ownership and maintenance thereof, identification of all land that will become common or public land, and any other evidence necessary to indicate compliance with this By-law.
- ☒ 3. Drainage calculations prepared by a professional engineer registered in the Commonwealth of Massachusetts. Storm drainage design must conform to the requirements set forth by the MassDEP Stormwater Management Standards and Department of Public Works, using Best Management Practices. Furthermore, the report may include Town, state, and federal requirements or established standards for implementing best management practices for stormwater management.
- ☒ 4. A written summary containing the Urban Design Objectives Narrative which provides a description of how the project will be designed to encourage complete streets including transit access and pedestrian and bicycle amenities, and their potential connections to the Town's bicycle and pedestrian system.
- ☒ 5. A written summary which outlines proposed best management practices, low impact development (LID) features, and energy efficiency features utilized on-site.
- ☒ 6. A written summary of the design and location of proposed mechanical equipment, including HVAC equipment; noise levels related to mechanical equipment; information regarding possible future expansion, if relevant; location and operation of trash storage and removal systems; location and operation of loading facilities, measures taken to minimize the negative visual and noise impacts of such facilities on abutters; and hours of operation for each proposed use.
- ☒ 7. A written report of the existing and/or proposed sewer service infrastructure on-site and connection points. The report shall include a detailed description of the conditions of the pipes; a video inspection where appropriate and/or necessary; a detailed description of the anticipated impact of the project on the Town's sanitary, stormwater, and sewer infrastructure. Where such determinations cannot be made at the time of application, the report shall indicate what investigations must be undertaken by the Applicant to make such determinations; also, a timeline for completion of the report shall be submitted for review by the Department of Public Works.

- ☒ 8. A written report of any proposed blasting or soil compaction activities that will take place during construction activities. The report shall include methods of abutter notification, methods for testing and data collection, and a summary of how real property damage will be investigated.
- ☒ 9. A written summary of water service infrastructure detailing the anticipated impact of the project on the Town's water delivery infrastructure and supply. The summary shall indicate the likely improvements to infrastructure that are necessary to accommodate the identified impacts. Where such determinations cannot be made at the time of application, the report shall indicate what investigations must be undertaken by the Applicant to make such determinations; a timeline for completion of the report shall be also submitted for review by the Department of Public Works.
- ☒ 10. A written Parking Impact Report shall be submitted detailing the existing and proposed parking for the project including the following:
- Existing off-site neighborhood parking conditions, including identification of streets likely to be affected by the project;
 - Projected impact of project; and
 - Proposed methods to mitigate the estimated adverse impacts cause by the project related to parking such as promoting the use of bicycles, public transportation, or other appropriate means.
- ☐ 11. A written Traffic Impact Report shall be submitted for all projects requiring **major** site plan review. This report shall include existing pedestrian and vehicular traffic volume, composition, peak hour levels, existing street and sidewalk capacity, and analysis of existing and resulting level of services (LOS) for the following:
- The nearest and/or most impacted public roadway intersection;
 - The estimated average daily traffic generation, including composition and peak hour levels;
 - The directional flows resulting from the project;
 - Any proposed methods to mitigate the estimated traffic impact such as promoting the use of public transportation, roadway improvements, or other appropriate means;
 - The methodology and sources used to derive existing data and estimations; and
 - The feasibility of traffic calming measures such as textured crosswalks, bike lanes, roundabouts, rumble strips, street trees, or bulb-outs.
- ☐ 12. A written Environmental Impact Report, including a Stormwater Report, and a Stormwater Management System Maintenance Report shall be submitted for projects requiring **major** site plan review, new construction of a building of any size, and/or installation of a stormwater management system The report should include:
- Information regarding the impact of storm water runoff on adjacent and downstream water bodies, subsurface ground water, and water tables.
 - Information regarding the potential erosion and sedimentation caused by the operation and maintenance of the project and the mitigation efforts proposed. To this end, high intensity soil mapping, i.e., test borings and analysis, may be required.

- For projects with significant environmental impacts to wetlands, floodplains, or other sensitive resources the Applicant shall include a report detailing the relationship of the project to the natural and man-made environment, and compatibility of the project with adjacent or surrounding land uses and neighborhoods. An Environmental Impact Report (EIR) required through the Massachusetts Environmental Policy Act (MEPA) process, which addresses the Planning Board's concerns, may be substituted in lieu of this report;
- Proposed methods to mitigate the estimated environmental impacts such as promoting the use LID, best management practices, and other methods of design.

Waiver. The Planning Board, at its discretion, may waive technical and/or submittal requirements of Section VI.F.5. for a project, where such technical and/or submittal requirements are not appropriate or relevant to the project. All Applicants seeking waiver request shall provide a detailed description of the need for relief from the technical and/or submittal requirement.

SEE SITE PLAN & ITEM A ABOVE
(c) Briefly describe all temporary Erosion and Sedimentation Control Measures to be employed during construction.	SEE SITE PLAN + ITEM A ABOVE
(d) Briefly describe all permanent Erosion and Sedimentation Control Measures to be installed post construction and permanently maintained.	ROOF RUNOFF WILL BE DIRECTED TO ON SITE INFILTRATION SYSTEM. ALL WORK LIMITS ARE TO BE STABILIZED & PROPERLY TREATED W/ LOAM + SEED OR PLANTINGS
(e) Timeline for Project.	6 MONTHS
Control of Stormwater Runoff	
(f) Briefly describe how the Project will not increase the rate, concentration, or velocity of runoff from the site and how the project will minimize the volume of runoff from the site onto abutting properties.	SITE ACTUALLY REDUCES TOTAL IMPERVIOUS LIMITS IN POST CONSTRUCTION CONDITION, HOWEVER DESIGN INCLUDES 100% RECHARGE OF ROOF RUNOFF TO SIGNIFICANTLY REDUCE RUNOFF FROM PROJECT SITE

(g) Briefly describe how the Project will not adversely impact the abutting properties by changing the volume of Stormwater Runoff which would result from the land disturbance activities including but not limited to Erosion, silting, flooding, Sedimentation, subsidence or impacts of runoff from the site onto abutting properties.

EROSION CONTROL BARRIERS ESTABLISHED AT PERIMETER OF WORK LIMITS, CONSTRUCTION APRON WILL PREVENT SEDIMENT TRANSPORT TO PUBLIC + PRIVATE WAYS.

(h) Briefly describe how the Project will not adversely impact the groundwater resources in terms of quantity or quality.

SITE CURRENTLY HAS NO STORMWATER RECHARGE, 100% ROOF RUNOFF WILL BE RECHARGED PROVIDING EFFICIENT & IMPROVED QUANTITY + QUALITY OF GROUNDWATER RESOURCES

Protection of Natural Features and Vegetation

(i) If applicable, please list and endangered species or wildlife habitats and corridors, natural landscape features, and scenic vistas and views on the Property. If applicable, please describe how the project will site buildings, structures or parking facilities to ensure they do not detract from the Site's scenic qualities.

EXISTING MASONRY WALL + TREES WHEN POSSIBLE WILL BE RETAINED - NOT SITE OF SIGNIFICANT WILDLIFE HABITAT

(j) Please briefly describe the characteristics of the site or provide photos that are representative of the Site. If applicable, please provide a list of all trees greater than 6" in diameter - stating the species and site and denote these trees on the Site Plan.

TREES SUITABLE FOR RETENTION ARE IDENTIFIED ON SITE PLAN.

Protection of Historic Resources

(k) Please provide a list of all historically significant resources on-site.

BUILDING ALTHOUGH OVER 50 YEARS OLD HAS NO ARCHITECTURAL SIGNIFICANCE & IS IN EXTREMELY POOR CONDITION, MASONRY WALL ALONG ROUTE WILL BE RETAINED

(l) Briefly describe all reasonable measures that shall be employed to protect historic resources including but not limited to historic landscape features both above and below ground, buildings, structures, objects, stone walls, foundations, and designed landscapes and gardens.

MASONRY WALL IS MOST SIGNIFICANT FEATURE & IT WILL BE RETAINED

Special Permit for Land Disturbance Application Checklist for Plan Content

Please insure that your application and site plans include all the items below. If a site plan does not contain the required information you may request waiver. Waiver requests must be accompanied by a written explanation for request. (**Please note: Failure to complete all items may result in your application being deemed incomplete and may cause a delay in processing your application.)

- ☒ Any person who desires a Land Disturbance Special Permit shall submit a plan prepared and stamped by a Professional Engineer and a Professional Land Surveyor each registered in the Commonwealth of Massachusetts, at a scale of one inch equals twenty feet (1"=20') showing.
- ☒ North arrow, scale, and date.
- ☒ Locus map showing the parcel in relation to the surrounding properties.
- ☒ Name of record owner(s) of land shown on the plan.
- ☒ Boundaries and existing and proposed topography of the property, including contours at a 2- foot interval, using (National Geodetic Vertical Datum 1929) NGVD29 as it may be updated from time to time and specifying NGVD29 on all elevation drawings, specifically indicating the areas on which the activity is proposed to occur, and clearly noting if the activity is on an area greater than 4,000 square feet or on Slopes 15% or greater.
- ☒ The size and location of all existing and proposed buildings, structures, utilities, roads, driveways, parking areas, and areas of cut and fill on the site and the location of all structures on abutting properties within 100 feet of the property lines of the parcel.
- ☒ Property lines, easements and/or other legal rights within the property lines.
- ☒ All wetlands and wetland resource areas as defined in M.G.L. Ch. 131, §40, and the Framingham Wetlands Protection Bylaw, Article V, §18 of the General By-laws, drainage patterns, and watershed boundaries. Also include a delineation of the 100-year floodplain and all bodies of water, including vernal pools, streams, ponds, and coastal waters within 125-feet of the project site/limit of work and the delineation of a 30-foot no-cut/no alteration zone.
- ☒ Submission of a scaled landscape plan that delineates on a single sheet the existing vegetation both on the Lot and in the right-of-way, the vegetation to be removed or relocated, the re-vegetation and the limit of work. The limit of work shall include all building, parking, and vehicular use areas, and any grading associated with the proposed development. Include a planting plan to ensure permanent re-vegetation of the site except for Disturbed Areas that will be covered by gravel, hardscape or a building or structure. If applicable, include:
 - ☒ Upland vegetation communities, including trees, shrub layer, ground cover and herbaceous vegetation.
 - ☒ Size and height of trees, of Specimen Trees and/or significant forest communities.
 - ☐ Location of any rare and endangered species as mapped by the Massachusetts Natural Heritage Program.
 - ☒ The location of any proposed stockpile locations.
- ☒ Detailed drawings and design calculations of all temporary and permanent stormwater management and Erosion and Sediment control structures and devices.
- ☒ A narrative documenting the species and quantities of Specimen Trees and/or other vegetation to be removed or relocated within the project area.
- ☒ If applicable, include a statement prepared by a certified arborist for the proposed relocation of any existing Specimen Tree explaining how said tree is to be relocated and maintained.
- ☒ Photographs of the site prior to disturbance shall accompany the application.
